

PRODUCT CATALOGUE 2021

RC Medical brand

RC-Medical brand was founded as a result of collaboration and expansion of Rue Cambon and Med Point companies, in response to market's need, dictated by ongoing COVID - 19 pandemic. RC-Medical takes care of not just producing but also importing and distribution of the necessary products to fight SARS-CoV-2. We supply multiple medical facilities, hospitals, care facilities, medical wholesalers, national institutions and other enterprises, with the essential equipment.

We offer disposable products that meet all the norms required, are fully certified and guaranteed the best quality.

RC-Medical headquarters are located at 10 Mehoffera, Kraków. Our storage facilities are located in Kraków- Poland, Modlniczka- Poland and Koper- Slovenia. We work in close cooperation with MGI Medical and Top Glove, as well as factories located in Malaysia and China.

Our main goal is dynamic development and to maintain the highest quality of products in our offer. We continually focus on expanding our client and contractors list.
